DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-24 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claims 1-24 are rejected under 35 U.S.C. 101 based on the theory that the claims are directed to neither a method of making nor a method of using, but rather embraces or overlaps two different statutory classes of invention set forth in 35 U.S.C. 101, which is drafted so as to set forth the statutory classes of invention. 35 U.S.C. 101 clearly states, "Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefore, subject to the conditions and requirements of this title."

Art Unit: 1617

The term process as defined by 35 U.S.C. 101 means "process, art, or method, and includes a new use of a known process, machine, manufacture, composition of matter, or material." This is not interpreted to mean that a patent can be issued on a process of preparation and a method of use. A patent is given to any new and useful process not processes. Thus, Claims 1-24 are rejected under 35 U.S.C. 101 for the reasons stated above.

The Examiner may ask for restrictions or/and further rejections based on the applicant's response.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

(1) Claims 1-24 provide for the use of at least one compound of formula 1 for the preparation of a composition designed for the treatment of keratinic matter and mucous membranes, but since the claims do not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced. Thus, claims 1-24 are rejected under 35 U.S.C. 112, second paragraph.

Art Unit: 1617

The Examiner may ask for restrictions or/and further rejections based on the applicant's response.

(2) Claims 25 and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear and indefinite what type of treatment is given. The claims only state a "cosmetic treatment", which can read on make-up and numerous disorders and diseases.
